CHILDREN

It's what we do! We educate and care for students, and their happiness and quality of learning is why we strive for excellence in all aspects of our program. As a non-profit organization, this means that we must raise funds to ensure that we can continue to provide this service to the community at a continuing—and improving!—rate of such merit.

COMMUNITY

Our mission isn't just about the students and families in attendance at our school. It is about the future of all children—especially those in our direct area—and the impact we have on the world around us each day. Joyful Noise cares about and seeks to serve not only our immediate environment but the entire community, creating a positive wave of change for years to come.

CONTRIBUTIONS

They keep us going. With your contributions, we are able to provide our students with new equipment and updated facilities, and offer our staff extra resources and training. Through your support, we can also exceed state expectations for caregiving ratios (creating additional supervision and one-on-one care) and create new programs to serve children.

CONNECTIONS

Are you looking for a way to connect, and make a positive impact on the youth in your community? Even if your own children are grown with families of their own, you can reconnect with the splendor and excitement of youth and early childhood education by making a simple donation to our school and watching us grow.

CARING

It takes caring individuals to foster growth with financial support for educational programs. We know you care about us because you are here visiting—and we thank you for that. Without your consideration and caring, our school wouldn't be able to function as a shining example of early childhood education. Please continue to care about us, and our mission!

CONFIDENCE

A superior start in early childhood translates directly into a confident and successful academic and emotional life. Think of us as the primer for a beautiful work of art or the strong foundation on which a house is built; our work here is important and time sensitive! We won't have a second opportunity to create the groundwork for all of these amazing children—we *must* get it right the first time.

COLLABORATION

This isn't just "our" project—it's yours as well! We want to collaborate with you and combine our efforts, because we know that you care about our mission of educating and caring for children as much as we do. As our children grow and become members of the community and society, we join each other in the collaborative effort to make the world a better place!
